Profile

MSc Information Systems and Operations Management student with **2 years of commercial development experience** in **software engineering**, specializing in **Frontend Development**. Eager to apply strong **analytical, problem-solving**, and technical skills to deliver **clean, efficient, and maintainable code** and drive digital transformation. Proven ability to work in **Agile** environments, leveraging modern practices like **TypeScript**, **React.js**, and **Continuous Integration**. Committed to best practices, **Unit Testing**, and supporting smooth production deployments.

Education

MSc Information Systems and Operations Management, University of Nottingham, UK
Sep 2025 – Sep 2026

Modules: Data Management and Manipulation, Management Science for Decision Support, Managing Contemporary Operations, Project Management, Business Intelligence and Analytics, E-Business, Information System Design and Development, Operations and Supply Chain Strategy and Practice

Bachelor of Technology in Chemical Engineering, National Institute of Technology, India
Grade: 2:1 **Jul 2019 – May 2023**

Relevant Experience

Front-End Developer, Deloitte US offices of India Pvt. Ltd., Bangalore, India
Jul 2023 – Jul 2025

- Modernised React applications and built new React apps from scratch, developing reusable code libraries and ensuring clean, efficient, and maintainable code while accelerating delivery speed by **20%** through collaborative Agile sprint planning and project coordination.
- Upgraded dependencies and performed vulnerability assessments, resolving high-severity security issues and reducing Continuous Integration (CI) build failures by 20%, ensuring enterprise security and stable infrastructure.
- Ran proof of concept for Husky-based pre-commit linting enforcement, improving **code quality** and streamlining Unit Testing and incident response workflows.
- Ran proof of concept for Husky-based pre-commit linting enforcement, improving code quality, and stream- lining testing and incident response workflows.
- Developed and maintained analytics dashboards with interactive charts, supporting performance analysis and delivering insights for administrative reporting and stakeholder feedback.
- Delivered and shipped Salesforce Lightning Web Components with accessible responsive UI features and conducted accessibility testing following WCAG rules, demonstrating ability to build testable solutions.
- Facilitated cross-team onboarding, training, and knowledge transfer, enhancing communication and documentation to drive operational efficiency.
- Recognised with 3 awards at Deloitte for consistent contributions and dedication.

Professional Projects at Deloitte

Front-End Developer for a Customised AI Chatbot Application, **Policy Engine Nov 2023 – Oct 2024**

- Built and delivered analytics dashboards aligned to client requirements, boosting client insight and decision making by 25%.
- Coordinated **cloud-based feature releases** with comprehensive project documentation, user feedback cycles, and client demos, supporting releases moving through environments to production.

Front-End Developer for Firm Initiative Client Pitch, Professionals Healthcare App
Nov 2024 – Dec 2024

- Delivered barcode scanning and multi-party video calling features, collaborating in cross-functional teams to ensure platform compatibility and robust testing.
- Enhanced project documentation and user acceptance through iterative mobile-first development and performance analysis.

UI Developer for Government Client, Foster Care & Child Welfare Portal Nov 2024 – Jul 2025

- Delivered accessible and responsive portals with robust Lightning Web Components, aligning to compliance standards.
- Tracked project milestones, led onboarding, knowledge transfer, and ownership for new team members.

Other Work Experience

Process Engineering Intern Cadila Healthcare Ltd., Dabhasa, Vadodara **Nov 2021 – Dec 2021**

- Led root cause analysis and line tracing for a critical corrosion issue, implementing a scalable and cost-effective solution that contributed to overall cost reduction by **12%** and downtime reduction by **15%** across target units.
- Coordinated cross-functional meetings, managing project planning, documentation, and status updates to accelerate operational incident resolution and facilitate seamless communication.

Personal Project

Swiggy React Clone **Jan 2025**

- Created comprehensive React application showcasing Hooks, Custom Hooks, live API integration, automated checks, and performance tuning for efficient maintenance and scalability.

GitHub - https://github.com/Yash-Thakkar14/react-swiggy-clone

Extra-Curricular Experience

Sponsorship Head, Techno-Managerial College Fest, India **Dec 2021 – Apr 2022**

- Coordinated strategic partnerships and client relationship activities for India's Top 10 Techno-Managerial College Fest.

Head, Dance Club, College, India **Apr 2022 - Apr 2023**

- Led event logistics and team coordination, ensuring smooth and organised event delivery.

Skills

Technical: Data Analysis, Reporting, Project Management Tools: JIRA, Frontend: HTML5, CSS3, Angular React.js, JavaScript, Typescript, jQuery, Salesforce LWC, Redux Toolkit, Material UI, Version Control: Git, Bitbucket

Language: English (Native), Gujarati (Native), Hindi (Native).
