Profile

MSc Information Systems and Operations Management student with 2 years of commercial software engineering experience, specializing in modern Frontend Development. Highly proficient in JavaScript, TypeScript, React.js, and Angular, with a proven track record of delivering clean, efficient, and well-tested code in Agile environments. Strong independent problem-solver with collaborative team experience, eager to apply my robust frontend foundation while expanding my backend skills through learning MongoDB and Node.js to build scalable digital signage solutions across the full software development lifecycle.

Education

MSc Information Systems and Operations Management, University of Nottingham, UK
Sep 2025 – Sep 2026

Modules: Data Management and Manipulation, Project Management, Business Intelligence and Analytics, E-Business, Information System Design and Development.

Bachelor of Technology in Chemical Engineering, National Institute of Technology, India
Grade: 2:1 **Jul 2019 – May 2023**

Technical Skill

- Languages & Frameworks: JavaScript (ES6+), TypeScript, React.js, Angular, HTML5, CSS3/SCSS.
- Tools & Libraries: Redux Toolkit, Material UI, Tailwind CSS, Formik, Yup, LWC, jQuery, Bootstrap, framer-motion.
- Development Practices: Agile Methodology, Unit Testing, Version Control (Git, Bitbucket), CI/CD workflows, ADA/WCAG Accessibility Compliance, JIRA.

Relevant Experience

Front-End Developer, Deloitte US offices of India Pvt. Ltd., Bangalore, India
Jul 2023 – Jul 2025

- Executed complex code optimization and bug fixes during the successful migration of enterprise applications from Angular to the React framework.
- Built and modernised responsive front-end applications using React.js, TypeScript, and Material UI, accelerating delivery speed by 20% through collaborative Agile sprint planning.
- Worked on a personalised AI chatbot for a Government Healthcare Department with ownership of the Analytics Dashboard made with using apex-charts.
- Integrated multiparticipant video calling using amazon-chime-sdk for a government client pitch.
- Ran a POC on implementing Husky pre-commit hooks in 4 enterprise application to reduce linting issues.
- Upgraded project dependencies and resolved high-severity security vulnerabilities, reducing Continuous Integration (CI) build failures by 20% to maintain stable infrastructure.
- Authored and shipped accessible, responsive UI features aligned with ADA and WCAG standards, demonstrating a strong commitment to inclusive user experiences. Facilitated cross-team onboarding, training, and knowledge transfer, enhancing communication and documentation to drive operational efficiency.
- Recognised with 3 awards at Deloitte for consistent contributions and dedication.

Professional Projects at Deloitte

Front-End Developer for a Customised AI Chatbot Application, **Policy Engine Nov 2023 – Oct 2024**

- Built and delivered analytics dashboards aligned to client requirements, boosting client insight and decision making by 25%.
- Coordinated cloud-based feature releases with comprehensive project documentation, user feedback cycles, and client demos, supporting releases moving through environments to production.

Front-End Developer for Firm Initiative Client Pitch, Professionals Healthcare App
Nov 2024 – Dec 2024

- Delivered barcode scanning and multi-party video calling features, collaborating in cross-functional teams to ensure platform compatibility and robust testing.
- Enhanced project documentation and user acceptance through iterative mobile-first development and performance analysis.

UI Developer for Government Client, Foster Care & Child Welfare Portal **Nov 2024 – Jul 2025**

- Delivered accessible and responsive portals with robust Lightning Web Components, aligning to compliance standards.
- Tracked project milestones, led onboarding, knowledge transfer, and ownership for new team members.

Personal Project

Portfolio Project: **Jan 2025**

- Developed a high-performance, modern personal portfolio single-page application utilizing Vite with Rolldown to showcase frontend engineering projects, technical skills, and commercial experience.
